- ONLY LEA's/schools may register with providers.
- Laws concerning student privacy must be followed between the LEA/school and the provider in the registration process. For more information on establishing a system of data governance, please see [Louisiana's Data Governance and Student Privacy Guidebook](#). For more information, email LDEData@la.gov. Each LEA has its own policy for student privacy and providers and LEAs should communicate those protocols before any student information is sent when registering students.
- LEA reports final enrollment information in LDOE system.
